Our Little Surprise

Two Compact and Powerful A4 Colour Laser Printers

©2007 Fuji Xerox Printers. All rights reserved. Contents of this publication may not be reproduced without permission of Fuji Xerox Printers. Xerox, The Document Company, the stylized X, Phaser, CentreWare[®] and PhaserSmart[™] are registered trademarks/trademarks of Xerox Corporation. All other names mentioned are trademarks of their respective companies. The information in this brochure is subject to change without notice. Errors and omissions excepted. Fuji Xerox Printers practice a policy of continued product development, this means that product specifications may incorporate innovations and/or enhancements resulting from ongoing research & development (and may vary from those specified in brochures at time of printing). In keeping with normally accepted commercial practices, the purchaser is advised to both confirm product specifications, and satisfy themselves as to product performance and exact configuration (to suit each particular requirement) before purchase. Fuji Xerox Printers will not accept any liability (product related and/or resulting from product usage) where such due diligence has not been performed and the incorrect product has been purchased.

DocuPrint C1110/C1110 B Colour Laser Printer

Two small printers with attitude.

A very friendly attitude. Easy to use, easy to maintain. And really easy on your wallet. Their good looks fit nicely in any space, and their great features fit the bill for just about any home or small office printing task.

Powerful features for any job

- **High-speed** printing at 12 ppm colour/16 ppm monochrome
- **Superb** print quality at up to 9600 x 600 dpi
- **Speedy** first-page-out-time of 12 seconds colour/9 seconds monochrome
- **Super efficient** processing via 333 MHz CPU and standard 128 MB RAM (expandable to 640 MB)
- **Large** 250-sheet paper capacity
- **Outstanding** media support of 60 - 216 gsm from both trays
- **True Adobe® PostScript® 3™** support* for accurate printing from nearly any application

* DocuPrint C1110 only.

Beautifully designed for home or office

These two printers blend. In your home or office, you'll hardly notice you've got a powerful colour laser printer at hand. They are delightfully compact, too, allowing you to squeeze them in just about anywhere.

A simple joy to use

If you've ever wanted a hassle-free colour printer, now's your chance. Execute complex print jobs with ease, and perform routine maintenance in minutes.

Easy toner replacement

Replacing toner is as easy as A-B-C. Open the door, pull out the empty toner, and pop in a new cartridge. That's it – even your kids can do it!

Powerful Network* and Printing Features

For all its charm, the DocuPrint C1110 can still run with the big boys, thanks to the comprehensive array of network and printing features normally found only on business-class printers.

Extended network support

The DocuPrint C1110 is equipped with a built-in 100Base-TX/10Base-T interface. The optional Network Expansion Card vastly increases usability for different types of network printing.

Simplified printer management

Manage printer usage in a workgroup, including restricting access to colour printing, setting print limits for users and restricting printer access with Fuji Xerox Auditor.

Easy network set up and configuration

CentreWare Internet Services (IS) allows you to check printer status and configure settings via a web browser including TCP/IP settings, e-mail notification and more.

Citrix Presentation Server Support†

Connect to a Citrix network for either local or WAN printing.

Compatible with new IPv6‡

IPv6 support eliminates the need to set up an IP address. Additionally, support for WSD lets you enjoy the Network Plug and Play experience on Windows Vista®.

Secure print†††

Keep confidential documents safe. Secure print allows a print job to be temporarily stored in the printer, to be printed out after the appropriate user authentication is entered at the control panel.

Sample Print†††

Proofread a sample print of a multiple copy print job before continuing printing using the control panel.

* DocuPrint C1110 only.

† Requires the Print Utility for Metaframe and supports Windows-based clients only.

†† Requires the optional Network Expansion Card.

††† Requires additional memory.
