5. Tray 1
6. Optional Tray 2
7. Paper Level Indicator

Control Panel Components

1. Display Screen
2. Menu Button
3. Back Button
4. Stop / Clear
5. Error LED

imagine the benefits of high performance printing

Advanced design that redefines the modern office

What would your business look like with a small quiet laser printer that could be used anywhere? Samsung's ML-2855ND can be placed where it is convenient for you, on your desk or at the corner of your office, and its stylish design won't need to be hidden. The world's smallest laser printer with built-in duplex is only **391 x 369 x 217 mm (15.39" x 14.52" x 8.54")**. Visualize all the places this compact laser could fit into your business. And imagine how the trendy stylish design will update your environment.

Reliable performer that enhances business production

How much could you accomplish with a high performance laser printer that is fast and reliable? With **400 MHz** processor and printing speed of **28 ppm (A4) (30 ppm/Letter)**, printing production won't slow down, even with large print jobs. And the optional second cassette tray will eliminate the need for constant paper monitoring. Best of all, Samsung's ML-2855ND has a superior monthly duty cycle of **50,000 pages** a month. With these reliable features, your business will accomplish more than you ever thought.

Economical laser that is also easy to use

Would a laser printer that is easy to use and economical simplify your business? Samsung's ML-2855ND is designed with a simple and wide LCD panel and convenient compass navigation that anyone can master quickly. Duplex printing is just as simple to use, saving you time and paper. The savings don't stop there. This laser printer is very economical to operate and has a low cost per page. Ultimately, the Samsung's ML-2855ND saves your business both time and money.

Various Printing Features

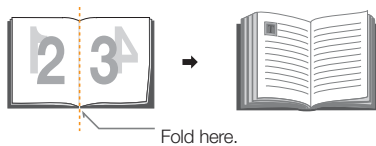

Duplex Printing: Enhance your efficiency with one-touch duplex feature that comes standard with the ML-2855ND. Create your own double-sided document with options such as long edge and short edge printing. In addition, two-sided printing will save paper, allowing for convenient storage and portability.

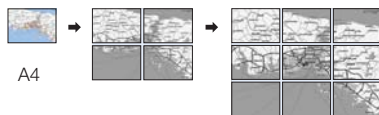

N-up Printing: Create multiple copies of the same page or photo onto one page. No need to cut and paste or print multiple times. N-up printing feature creates up to 16 images on one page and produces just the size you need.

Booklet Printing: The ML-2855ND can handle booklet creation easily and efficiently.

Poster Printing: Create large sized posters with the 'Poster' printing feature. Start with any size image and create proportional posters of any size. Print out is printed on many pages to create a seamless poster.

imagine efficient networking

Network Management Tools

SyncThru™ Web Admin Service

SyncThru™ Web Admin Service is a web-based fleet management tool for configuring printers, checking device status, performing remote diagnostics, receiving alerts when possible problems occur, and changing settings without leaving your desk.

SyncThru™ Web Service

Increase productivity with SyncThru™ Web Service. This user-friendly printer configuration tool requires no installation in the form of embedded web server that can be accessed by web-browser. It provides administrators with the ability to change network and individual printer settings, upgrade firmware and view network printer status.

Wired Network Printing

ML-2855ND offers network printing capabilities to easily connect your workplace, including an Ethernet interface capable of being cabled directly into your network.
