Big printer power for the small office

THE DOCUMENT COMPANY
FUJI XEROX

Fuji Xerox Printers

The compact and sleek Fuji Xerox DocuPrint 240A/340A is designed to give you fast, sharp and professional looking documents day in and day out. Not only will these office solutions keep up with your workload consistently and reliably but you can also do it for less. Giving you the performance you need with better value.

Range of Enriched Features

There is more than meets the eye with the DocuPrint 240A/340A. Even though it is compact in size, it is packed with useful and convenient features to give you big performance while saving you money.

- **Duplex Print Module** allows booklet printing by automatically arranging pages in sequence.
- **Electronic Sort** allows data to be read into memory so that subsequent copies can be read directly, printed and collated speedily. It also has the advantage of transferring data of more than one print from your personal computer to the printer.
- **Security Print** function protects documents from undesired scrutiny by storing data on the hard disk until unlocked with a password.
- **IP Address Restriction** ensures output control and may be set individually or for a group.
- **Mail Notification Service** alerts you to situations like toner or paper shortage and sends the message to a set recipient.

Easy Network Management and Support

The DocuPrint 240A/340A is able to support various office protocols to fit seamlessly into today's intelligent office. It is easy to install and even easier to use with a host of smart features.

- **Compatible with various office environments** like TCP/IP, NetWare (IPX/SPX), NetBEUI, EtherTalk (PostScript environment) and other protocols.
- **PCL Driver Utility** makes installation and set-up effortless.
- **CenterWare Internet Services** enhances operability on a network.

Professional laser quality. Reliable, versatile and affordable

Excellent Performance

You can count on crisp, clear and sharp prints in less time with the DocuPrint 240A/340A. That is because it is engineered to perform at unsurpassed speed, without compromising on the high quality resolution you have come to expect from Fuji Xerox.

- **True 1200 x 1200dpi resolution** at rated speed.
- **Continuous high-speeds of up to 24ppm (240A) and 34ppm (340A) printing** is ensured with the 266MHz RISC PowerPC 603 processor that also excels at handling multiple print jobs.
- **Greatly reduced warm-up time** is made possible with the Fuji Xerox unique Quick Fuser Technology.
- **Extremely high capacity printing** is possible with a maximum duty cycle of up to 75,000 (240A) and 150,000 (340A) prints.

Increased Convenience

Enjoy not only the benefits of a top-performance printer, but also the added features that will make overcoming work obstacles and performing beyond expectations a breeze.

- **Uninterrupted printing** is possible with its ability to continuously feed up to 1800 sheets of paper.
- **Universal trays** can accommodate a host of paper sizes and thicknesses.

All-round Affordability

In addition to guaranteed superior performance and higher productivity comes substantial savings with a lower cost all-round.

- **Toner consumption is reduced by 30%** with the Toner Save Mode.
- **Lowest power consumption in its class** in sleep mode and conforms to the International Energy Star Programme. The warm-up time from power-on or sleep mode is also shortened so you save energy and reduce time-cost simultaneously.
- **Low running cost** is also made possible with the high capacity toner allowing up to 10,000 (240A) and 17,000 (340A) pages.
