A3 Monochrome Laser Printer

DocuPrint 5105 d

Speed and productivity
for today's needs – and tomorrow's.

Powerful A3 printing with extensive productivity capabilities

Introducing the DocuPrint 5105 d. An A3 monochrome laser printer – providing high speed printing with ultra reliability that is ideal for high volume printing. With an extensive list of expandability options, it is the ideal solution to meet the demands of today's printing needs – as well as tomorrow's.

Performance and Reliability

High speed, reliable printing

With its newly designed high speed print engine, the DocuPrint 5105 d delivers a blistering 55 pages a minute¹ with ultra dependability – perfect for high volume monochrome printing applications.

¹A4 paper, 1 sided

Ready to go when you need it

The DocuPrint 5105 d boasts a first page out time of just 2.7 seconds, making quick work of on-the spot print requests.

Warm-up time from power on is also a quick 22 seconds or less, and just 12 seconds or less from sleep mode.

High speed connection of up to 2 networks*

The DocuPrint 5105 d comes standard with hi-speed Gigabit Ethernet, enabling high-speed connection to the network.

As a first for the Fuji Xerox printer lineup, you can now connect up to 2 Ethernet networks*, meaning printing can now be performed in two completely independent network environments. Security is ensured as there is no connection between either network.

*Requires optional Secondary Ethernet kit

Enhanced Productivity

Versatile paper handling

A wide range of media types can be handled, ranging from 60gsm through to 216gsm. Bypass tray supports standard paper from postcard through to A3 size, plus custom paper sizes (width: 75 to 297 mm, length: 98.4 to 431.8 mm).

Paper capacities start from 1,095 sheets as standard, up to a massive 5,095* sheets.

*With optional Tandem Tray Module and HCF. Paper counts based on 80gsm paper.

Professional Finishing capability

The DocuPrint 5105 d has an array of finishing options available that delivers professional-quality document production.

Secure document printing

Secure Print safeguards your confidential documents

Secure Print works by storing print data in the memory of the printer or hard disk. You can then release the data to print by entering a password on the printer's keypad, or by using an IC Card*. This feature helps prevent the mix-up of documents and works well on highly confidential documents in shared print environments.

*Optional IC Card reader required

Prevent unauthorised document copying

The DocuPrint 5105 d incorporates a paper security function that allows the user to Water Mark printed documents with a copy restriction code and a Universally Unique Identifier (UUID), that restricts the document from being copied or scanned, and can also identify the print machine that was used to print the document.

Eco-friendly

Excellent TEC Value

The DocuPrint 5105 d conforms to the International Energy Star Program standards for reducing power consumption, with a TEC value of 3.6 kWh

3.6 kWh

The simplified control panel of the DocuPrint 5105 d makes on-printer operations quick and easy.

The print solution that grows with your business

The DocuPrint 5105 d has been designed with scalability in mind. As your business grows and your printing demands increase, rest assured that functionality and productivity enhancements can be easily added to meet your requirements.
